## Re: Early Retirement converted to a Disability Retirement

I hereby request Early Retirement, which I understand may be converted to a Disability Retirement when I am approved for Social Security Disability benefits. Attached is a copy of my application for Social Security Disability benefits as verification that I am seeking benefits under the Social Security Act.

If I am approved for Social Security Disability benefits that are effective on or before commencement of my Early Retirement date, Disability Retirement benefits will be paid retroactive to my Early Retirement date.

If my Social Security Disability benefits are effective after my Early Retirement date, Disability Retirement benefits will be paid beginning on my Social Security Disability entitlement date.

I further understand that in accordance with Article II, Section 4 of the Plan document, the payment option elected under the Early Retirement shall also apply to the Disability Retirement when my benefit is converted.
